In other words, your grade will be the total points earned divided by the total amount of points possible. For instance, if you have a total of 400 points at the end of the grading period and there was 500 points possible, your grade would be: $400 \text{ points} / 500 \text{ possible points} = 0.8$ or 80%.

Grades will be figured according to the following scale:

90.0-92.9% = A-	93.0-100% = A
